

Wood & Drew (Victoria)

L Downey (Victoria)

Rob Halloran (South Queensland)

Class 17 Yellow Faced blue ASV, ASC

Judges comments on class:

1. Sky Blue cock – Impact budgerigar – wide shoulder with long feather – everything we desire
2. Grey cock – lovely strong cock without impact of first bird.
3. Grey cock – similar to second bird

4. Perfect feather without the top end of those in front.

Judges comments (recorded by Carol Gough):

Once again we had that impact bird. It says here I am. It was a little unsteady in the cage today but once we got him up he let it go. He has everything we want and more.

Second is a beautiful grey cock and the only thing he lacks is a little bit of feather length that the bird in front of him has. On any other day he would be the winner. Third bird is another grey cock, very similar in style to second but not quite the feather length that is required. Fourth bird has probably the most perfect feather condition but just hasn't got the power in the shoulder up that the first three have. Fifth place is a little narrower in the shoulder.
